

JULY 7-14, 2024 CLEAN ENERGY GEORGIA TRADE MISSION

Clean Energy Trade Mission GEORGIA “Helping Business and Municipalities Find the Best Clean Energy Fit”

Clean Energy experts gather in July 2024 in the state of Georgia to discuss the challenges of integrating new alternative energy technologies into government, transportation, and business. This trade mission travels to multiple cities in the state of Georgia offering participants business-to-business exchanges on renewable energy and alternative vehicle fuels. Recognizing the time and budgetary challenges faced by all business and government leaders, this business development mission makes it easy to obtain introductory information at the local level, rather than having to travel hundreds of miles to attend a large convention.

We invite You to join the mission and clean energy exchanges in the state of Georgia, to discover opportunities and share your expertise with other energy industry professionals and government leaders committed to investing in clean energy projects.

The international trade delegation will be led, by Minna LeVine, Chair SMART Community Council and NORDIC Business Council.

The trade mission fee is \$7,500 per person and includes:

7 nights hotels

All meals, including VIP Roundtable meetings and by-
invitation-only dinners

Industry Site visits

Transfers daily to meetings

\$7,500 per delegate (does not include airfare)
