

**Smart Living
Environments
Initiative—an
innovative platform
advancing SMART
growth across
communities and
regions.**

Smart Technologies

**Digital living
environments in our
future**

**Smart societies,
communities, and
cities – with Metaverse
and Quantum Internet**

**Digital living
environments in
our future smart
societies and cities
– with Metaverse
and Quantum
Internet**

**Use of Renewable
Energy systems on the
roofs of buildings in
urban areas**

**Our Digital
Systems in our
Future Societies
Smart Living
Environments in
Health Care**

Wearable Electronics and Their Diversified Requirements for WESDS Integration

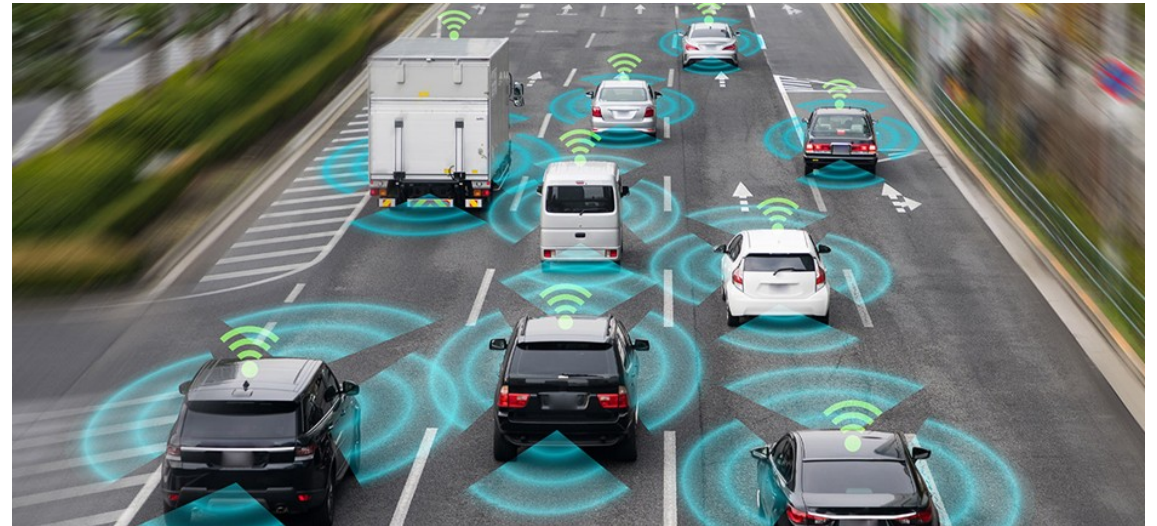

Multimodal Integrated Sensing and Communication

E-Health Systems for Remote and Disaster-Resilient Digital Environments

Smart Mobility

Metaverse Architecture

**Real-Time Metaverse:
Challenges and
Opportunities**

Future Internet

**Join the Smart Living Environments Initiative—
an innovative platform advancing SMART
growth across communities and regions.**

**Together, we'll unlock transformative
opportunities to deploy intelligent
infrastructure, elevate inclusive education,
and build resilient, human-centered
environments powered by data and innovation.**
